Agenda

- The Why: Ideologies behind Meaningful Day
- The What/How: Community Based Services-Digging Deeper
- The What/How: Person Centered Planning-Digging Deeper
- Meaningful Day x Employment

A group of diverse people, including men and women of various ethnicities, are shown from the chest up, standing in a circle with their hands stacked together in the center. They are all looking towards the center of the stack. The image is overlaid with a semi-transparent blue filter. The text is centered over the image.

What does *your*
meaningful life look
like?

Plus much more!

How do we ensure we
are doing our part to
make people's days
“meaningful?”

Community-based supports that are person
centered!

Community Life Engagement Guideposts

Guidepost 1:
Individualize
supports for each
person

Guidepost 3: Use
human and social
capital to decrease
dependence on paid
supports

Guidepost 4:
Provide supports
that are outcome
oriented and
regularly monitored

Guidepost 2:
Promote
community
membership and
contribution

Asset-Based Community Development (ABCD)

Gifts and passions v.
needs and deficits

- Originated out of faith communities
DeAmon Harges, Broadway
United Methodist Church

The “Roving Listener”
- Active listening is crucial component
Focus on person’s role in the
community vs. what the
community can do for them
- Discover “assets” through conversation and exploration
- Outcome: Reciprocal relationships
Offer your gift, and others
will in return

Agenda

- The What/How: Community Based Services: Digging Deeper
- The What/How: Person Centered Planning: Digging Deeper
- Meaningful Day x Employment

Where do I start?

Get staff buy-in

If the people doing the work are invested, the outcome will be better

Collaborate with other agencies

What are others doing in your area?

1 person at a time

Individual vs. system

Build relationships

Relationships = Community!

It starts with
ONE person
and ONE day!

The New Paradigm for Effective Community Impact – Asset Based

	Needs/Deficit Based	Asset Based
Purpose	Changing Community through increased services	Changing Community through citizen involvement
Method	Institutional Reform	Citizen-Centered production
Accountability	Leaders are professional staff. accountable to institutional stakeholders	Leaders are widening circles of volunteer citizens. Accountable to the community.
Significance of Assets	Assets are system inputs. Asset mapping is data collection	Assets are relationships to be discovered and connected. Asset mapping is self-realization and leadership development.
Production Resource	Money is the key resource. Falls apart without money.	Relationships are the key resource. Falls apart when money becomes the focus.
Operating Challenge	How do we get citizens involved?	How do we channel and build on all this citizen participation?
System Dynamic	Tends to spread itself thinner over time.	Tends to snowball over time.
Evaluation	Success is service outcomes, measured mostly by institutional stakeholders.	Success is capacity, measured mostly by relationships.

The How: Structure

Small groups

Staff Planning

**Geographic
Planning**

Transportation

Small groups

- “A group of people with disabilities looks like a group of people with disabilities”
- Ideal is 1:1, but we live in the real world!
- 3 max, try to group people with similar interests

Staff Planning

- Use a strengths-based approach
- Rotate staff to prevent burnout
 - Pros/cons
- Cross-training
- Always keep person supported in the loop

Geographic Planning

- Neighborhood Walks
 - New Jersey's Finest: Neighbours Inc
 - Started with staff
 - Staff went back and walked their own neighborhoods
 - Just observe!
 - Remember ABCD
- Work in concentric circles
 - 1...2...3...4...5 blocks/streets/bus stops
- Rural?
 - Neighbors (unrelated to above)
 - Town center/town square?

Transportation

- Travel train!
 - This will free up staff
- Natural Supports
- If rural...
 - Think walkable
 - Civic organizations

Storytelling: Jessica and Graham

What and How: Person Centered Strategies

**Goals and
Outcomes**

**Person-Centered
Tools**

**Individualized
Schedules**

Shift your mindset:

People's lives exist
outside of the 30 hours a
week we support them

Individualized Goals and Outcomes

- Plan with, not for
- Incorporate technology where you can
- SMART goals
- Use skills inventories to build logical strategies
- Build them into schedules
 - What am I doing TODAY to work towards this goal?

Rewriting Goals

Instead of...	Try this...
X will find a job	X will research jobs that match his interests via Virtual Job Shadow.
X will make more friends	X will invite her neighbors to a backyard barbeque.
X will participate in the community	X will become a member of her local gardening club.

Person Centered Tools

- Interest Inventories
- Positive Personal Profiles
- Communication plans (tech!)
- Relationship Mapping

Positive Personal Profile

Interests (What do I find <u>really interesting</u> or exciting? How do I choose to spend my free time?):	Positive Personality Traits (What are my good qualities? What good things do others often say about me?)
Temperament (What type of mood am I generally in? How sensitive am I to things that happen around me?):	Values (What is <u>really important</u> to me? What do I cherish in life? What do I want to defend and protect?):
Environmental Preferences (What are some words to describe the best type of place to work for me? In order to stay happy and focused, my <u>work place</u> should be...?):	Dislikes, Pet peeves, Idiosyncrasies (What really bothers me? What do I find frustrating? Common behaviors/ <u>self stimulating</u> behaviors?)

Life Domain Interest survey-

Area of Interest	Not interesting	Interesting	Very Interesting
Texting my friends and family (C)			
Going to work every day (E)			
Taking a walk every day (H&W)			
Taking a class about something I am interested in (LL)			
Making my own lunch (DD)			
Going to the store and buying something with my own money (F)			
Going on a date (R)			
Living in my own apartment/house (HH)			
Volunteering once a month (CI)			
Expressing my wants and needs (C)			
Working in an office job (E)			
Joining a sports team (H&W)			
Reading a book about a topic I like (LL)			
Making my bed in the morning (DD)			
Opening my own checking account			

Interest Inventory

Communication plans

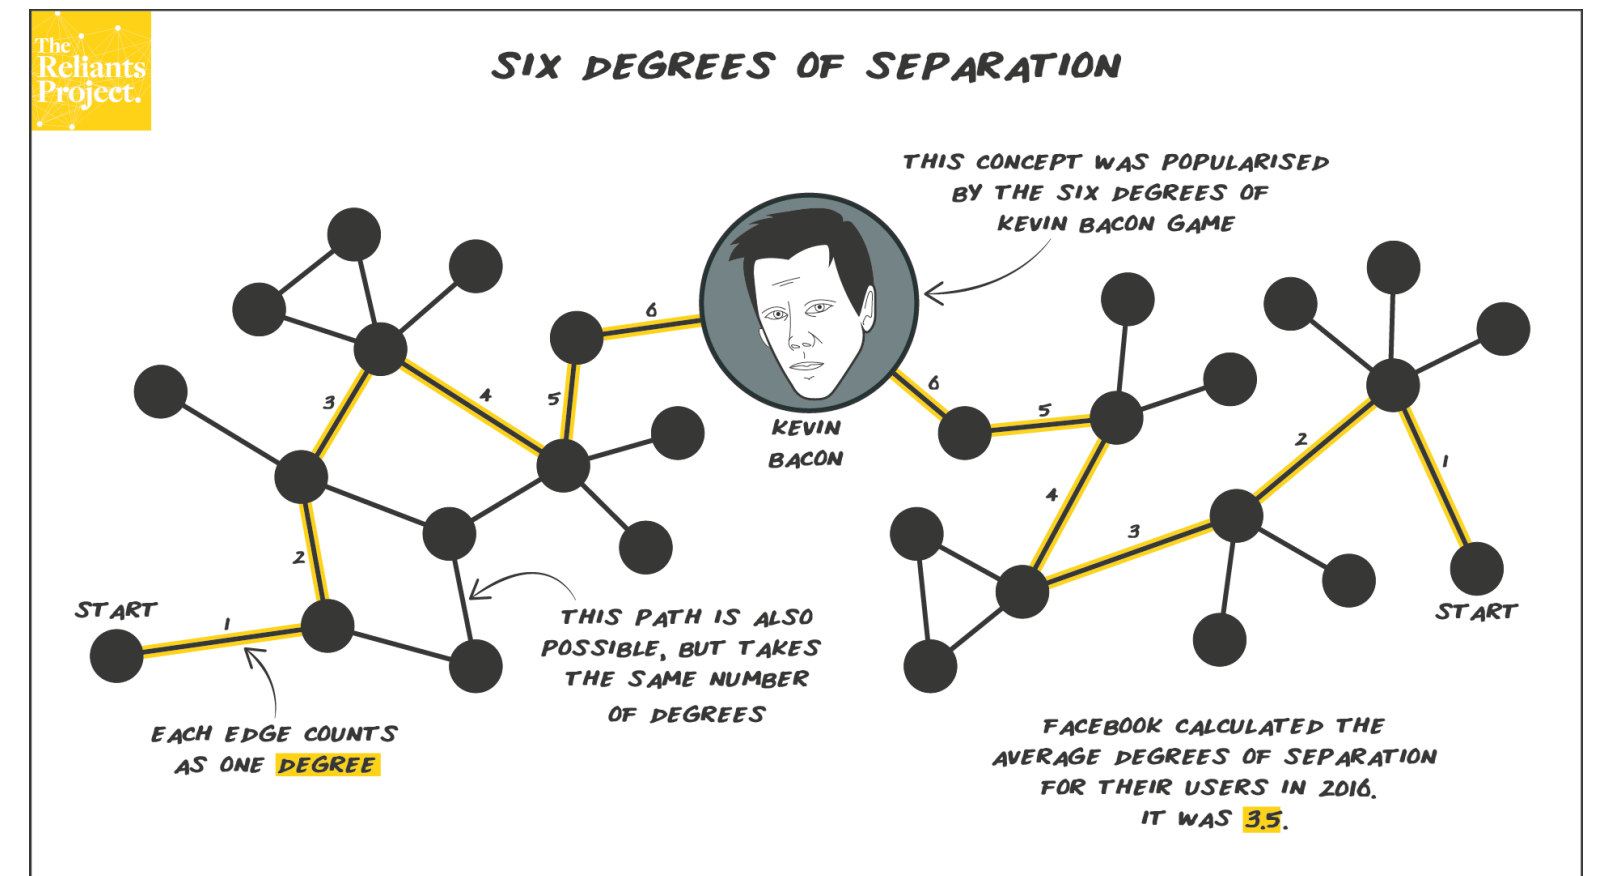

- Through meeting and observation, we gauge how the person communicates
 - Verbal
 - Gesture
 - ASL
 - Individualized signs
 - Sounds
 - Picture boards/low tech tools
 - Enabling technology
 - Other

Anyone remember 6 Degrees of Kevin Bacon??

The idea is that we are all connected to each other (or Kevin Bacon) by only 6 connections!!

How does relationship mapping affect community-based services?

Storytelling: Family/Community relationships in action

- Teddy, a person we support
- His mom, Arlene
- Their community, Washington Grove

Storytelling: Community Partnerships that lead to other partnerships!

- Matt, community member/business owner/SEEC Board Member
- Bridget, someone we support

- Meaningful Day x Employment

Employment

Part of a well-balanced ~~breakfast~~
meaningful day!

Employment First

- Employment must be the first option for people with I/DD when considering their meaningful life
- Employment IS a part of meaningful day!
- How do we work on employment during day services?

It doesn't have to “look like work” to be work!

- Skills learned through community engagement
 - Passive or active/hard or soft
- Try new things
- What can we learn from volunteering?
- Avoid “employment readiness”

Ways We Belong

Let's try...

What skills, passive or active, do you get from baking a cake?

Passive

Depth perception

Spatial awareness

Patience

Reading comprehension

Problem solving

Active

Reading

Measuring

Oven safety/skills

Decorating

Knife skills
