

Addressing Maternal Infant Child Health Crisis

LaVonja Abavana, AAS, Pre-Nursing
Faculty Mentor, Maria Leary

Introduction

Understanding the maternal infant child health crisis to develop programs within our agency to address the maternal infant child health crisis by the:

- Development of a maternal infant child health sub-committee with two co-chairs.
- Building trusting multi sector partnerships and collaborations
- Engaging in communities promoting awareness through outreach, focus groups, community events
- Educational presentations and trainings addressing factors contributing to maternal infant child health crisis and developmental disabilities
